Portfolio: ArjithSiva.github.io/portfolio

Profile

Driven Computer Science undergraduate specializing in IoT, demonstrating proven expertise in architecting database systems, engineering full-stack web applications, and deploying automated backend solutions. Adept at leveraging AI-assisted development and Linux environments to deliver scalable, high-impact enterprise solutions.

Education

2024–2028 **B.E. in Computer Science and Engineering (IoT)**,
Sri Sairam Engineering College, Chennai, CGPA: 8.08
Expected Graduation: May 2028

Technical Skills

Languages Python, Java, C++, Embedded C, Bash, PowerShell, SQL, JavaScript
Web Dev HTML5, CSS (Tailwind, Bootstrap), Node.js, React
IoT & DB Arduino, ESP32, Sensor Integration, MySQL, MongoDB, Firebase
Tools/AI VS Code, Git, Linux, AI Assistants (Roo Code, Claude, Aider, Local LLMs)
Hardware IT Networking (Wi-Fi, Firewall, Cabling), PC Building/Upgrading, CCTV/DVR Setup

Experience

2024–Present **Software Developer Consultant**, *Nanotec Solutions*, Chennai, nanotecsoft.in

- **Hospital Management System (Puthurkattu Bone Joint Centre)**: Executed full-scale migration of legacy MSSQL 2005 databases to MySQL 8.0, guaranteeing 100% data integrity. Engineered a robust Flask DBMS processing 250+ daily patient billings, integrating Pay4Sms APIs with WhatsApp automation to streamline post-treatment follow-ups.
- **HMS Data Integration (MRD Krishnagiri)**: Architected a Python-based ETL utility leveraging pyodbc and pandas to integrate modern web interfaces with legacy MSSQL servers. Automated patient data imports from Excel/CSV formats, eliminating redundant workflows and reducing manual data entry time by 85%.
- **Temple Devotee DBMS** (ayyavaigundar.in): Designed and deployed a secure Python/SQLAlchemy backend infrastructure with a MySQL database to systematically monitor temple revenue, track donations, and securely manage devotee records handling peak loads of 500–600 daily visitors on Sundays, optimizing financial oversight.
- **Web Development**: Spearheaded the UI/UX modernization and deployment of 5+ enterprise client websites (including aacon.in and hospitalsuppliers.co.in) via FTP hosting. Leveraged AI-assisted coding methodologies to optimize workflow efficiency, accelerating the project development lifecycle.

Projects

2025–2028 **Signify (Smart IoT Glove)**, *Final Year Project (Under Work)*, Chennai

- Engineering a highly-accessible wearable IoT glove designed to translate Indian Sign Language (ISL) gestures into real-time speech with <200ms latency.
- Integrating precision flex and motion sensors with ESP microcontrollers and wireless protocols, significantly advancing accessibility for speech-impaired demographics.

Achievements & Activities

2025 **Speaker & Coordinator**, *Department Skill Enrichment Program*

Directed technical workshops on system utilities and coordinated department-wide skill enhancement events.

2024–2025 **Competitive Programming**, *Skillrack, LeetCode, HackerRank*

Secured #1 rank on department coding leaderboard (Skillrack); collaborated in SDG-focused technical hackathons.

2023–2024 **Certifications**, *Coursera, NPTEL, IIT Bombay, IEEE BLP*

Earned professional certifications spanning full-stack development, IoT, and network management.
